About the Sport

The Britelight Sport is an innovative fixture designed for sports halls, adjustable in length and width to meet specific needs. It offers high protection against impacts such as balls with IK10 and IP44 ratings. You can choose between light quality with CRI >80 or >90. Furthermore, the fixture is available in 3,000 K and 4,000 K color temperatures, with an optional DALI dimmable driver for flexible light control.
